Art Unit: 3722

1. The following is a statement of reasons for the indication of allowable subject matter: it is initially noted that pages 6-10 of the specification have been rewritten as claim 1, such that approximately 50 pieces are set forth in claim 1 alone. Certain of these pieces (for instance the bearings, pull rod/drawbar, bias springs, spindle bearings, and power source) are quite common in the prior art devices. Several of the references of record incorporate clutches in the mechanisms to reciprocate their pull rods. However, due to the great number of parts set forth in claim 1, none of the references of record are even moderately close to showing all of this structure, and there is no suggestion to combine any of the references of record to obtain the device of claim 1.

2. Claims 1-3 are allowed.

3. Any inquiry concerning the content of this communication from the examiner should be directed to Daniel Howell, whose telephone number is 571-272-4478. The examiner's office hours are typically about 10 am until 6:30 pm, Monday through Friday. The examiner's supervisor, Monica Carter, may be reached at 571-272-4475.

In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office actions directly into the Group at FAX number to 571-273-8300. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a USPTO deposit account. Please identify Examiner Daniel Howell of Art Unit 3722 at the top of your cover sheet.
